

2024 GRI CONTENT INDEX

Global Reporting Initiative (GRI): An international independent standards organization that helps businesses, governments and other organizations understand and communicate their impacts on issues such as climate change, human rights and corruption.

STATEMENT OF USE: Crown Castle has reported the information cited in this GRI content index for the period January 1, 2024, to December 31, 2024, with reference to the revised [Universal GRI Standards](#).

GRI 1 USED: GRI 1: Foundation 2021

GRI 1: Foundation 2021

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
2-1 Organizational details	Crown Castle Inc. is a publicly held corporation that operates as a real estate investment trust (REIT) for US federal income tax purposes. Our headquarters are located at 8020 Katy Freeway in Houston, Texas. We operate in the United States.	2024 Form 10-K , Item 1 Business (p.4) and Item 2 Properties (p.31)
2-2 Entities included in the organization's sustainability reporting	Our sustainability and financial reporting is done on a consolidated basis.	2024 Form 10-K , Exhibit 21 Schedule of Subsidiaries of Crown Castle Inc. (p.170)
2-3 Reporting period, frequency and contact point	The reporting period for our sustainability and financial reporting is January 1 through December 31. We publish our Sustainability Report annually. The publication date of our Sustainability Report is July 23, 2025. Questions about our sustainability reporting can be directed to Sustainability@crowncastle.com .	Investors Sustainability Resources
2-4 Restatements of information	There were no restatements of information with respect to the reporting period covered in this GRI Content Index.	
2-5 External assurance	We obtain external limited assurance with respect to the sustainability targets included within our credit facility.	Form 8-K
2-6 Activities, value chain and other business relationships	<p>We are classified as Lessors of Other Real Estate Property (NAICS code 531190). We own, operate and lease shared communications infrastructure that is geographically dispersed throughout the US, including (1) more than 40,000 towers, (2) approximately 105,000 small cells on air or under contract and (3) approximately 90,000 route miles of fiber. In early 2025, we announced the agreement to sell our small cells and fiber solutions businesses, with the transaction expected to close in the first half of 2026.</p> <p>Our core business is providing access, including space or capacity, to our shared communications infrastructure via long-term contracts. Our Towers customers primarily comprise large wireless carriers that operate national networks, such as T-Mobile, AT&T and Verizon Wireless, which collectively accounted for approximately three-fourths of our 2024 consolidated site rental revenues. Approximately 56% and 71% of our towers are located in the 50 and 100 largest US basic trading areas, respectively. Our Fiber customers generally consist of large wireless carriers and organizations with high-bandwidth and multi-location demands, such as enterprise (including healthcare and financial), wholesale, government and education institutions.</p>	2024 Form 10-K , Item 1 Business (p.4)

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
<p>2-7 Employees</p>	<p>The people who work for Crown Castle are essential to our ability to execute on our strategy. As of December 31, 2024, we employed approximately 4,000 people, all of whom were based in the US. From time to time, we also add contingent workers to support our business.</p>	<p>2024 EEO-1 Report</p>
<p>2-9 Governance structure and composition</p>	<p>Crown Castle is governed by a board of directors. The board of directors currently has four standing committees: Audit Committee; Compensation and Human Capital Committee; Nominating and Governance Committee; and Finance Committee.</p> <p>As of June 1, 2025:</p> <ul style="list-style-type: none"> › Crown Castle’s board consists of 9 non-executive board members. › 100% of our board is independent. › The average tenure of the directors on our board is 4.8 years. › Refer to our Board Matrix for information regarding the experiences and skills of our board. 	<p>2025 Proxy Statement, Snapshot of the Company’s Director Nominees (p.3) and Board Matrix (p.18)</p>
<p>2-10 Nomination and selection of the highest governance body</p>	<p>The Nominating and Governance Committee has the authority to recommend nominees for election as directors to the board. Subject to specified procedural requirements, stockholders may also nominate directors.</p> <p>In considering candidates for the board, the Nominating and Governance Committee reviews the entirety of each candidate’s credentials and currently does not maintain any specific minimum qualifications that must be met by a director nominee.</p> <p>The Nominating and Governance Committee generally considers, among other factors, whether prospective nominees are able to read and understand basic financial statements, have relevant business experience, have industry or other specialized expertise and have high moral character. In addition, the Nominating and Governance Committee considers issues of diversity, including with respect to experience, expertise, viewpoints and skills, in connection with the director selection process.</p>	<p>2025 Proxy Statement, Nominating and Governance Committee (p.23) and Stockholder Nominations and Proposals for 2026 Annual Meeting (p.78)</p> <p>Corporate Governance Guidelines</p> <p>Nominating and Governance Committee Charter</p>
<p>2-11 Chair of the highest governance body</p>	<p>Our independent board chair is P. Robert Bartolo, a non-executive director.</p>	<p>Corporate Governance</p>
<p>2-12 Role of the highest governance body in overseeing the management of impacts</p>	<p>The responsibilities of our Nominating and Governance Committee include assisting the board in overseeing sustainability matters. Members of our Executive Management Team (“EMT”) and our dedicated Director of Sustainability keep our board apprised of sustainability developments and Crown Castle’s sustainability priorities, goals and initiatives. Together, our board and EMT define our strategic approach to overseeing and managing actual and potential impacts of material sustainability risks and opportunities for Crown Castle.</p>	<p>Corporate Governance</p>

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
<p>2-13 Delegation of responsibility for managing impacts</p>	<p>Our EMT, which reports on sustainability matters to the board, leads the management and execution of our sustainability priorities within the company. Our Executive Vice President and Chief Financial Officer (“CFO”) monitors and is responsible for financial matters, and social topics are overseen by the EVP & General Counsel (“General Counsel”). The General Counsel also oversees environmental matters. These officers are appointed by the board and report to the Chief Executive Officer (“CEO”) and the board. Other senior-level officers within Crown Castle are also charged with managing specific sustainability matters.</p> <p>Quarterly, a memo is prepared by management to update the board on sustainability matters. The board and EMT discuss sustainability matters at the regularly scheduled board and board committee meetings.</p>	<p>2025 Proxy Statement, Risk Oversight (p.19)</p>
<p>2-14 Role of the highest governance body in sustainability reporting</p>	<p>Our sustainability materials, including our Sustainability Report, the content on our sustainability webpage and our sustainability materiality assessment, are presented annually to the Nominating and Governance Committee.</p>	<p>Nominating and Governance Committee Charter</p>
<p>2-15 Conflicts of interest</p>	<p>We have various processes for identifying and avoiding actual and potential conflicts of interest, including related-person transactions. Our Conflict of Interest and Disclosure Policy (“COI Policy”) provides that directors, officers and other employees are expected to avoid any actual or perceived conflicts of interest. The COI Policy also provides procedures for reporting any actual or perceived conflicts of interest.</p> <p>Under our Related Party Transactions Policy, each executive officer, director, or director nominee is expected to notify the General Counsel or Corporate Secretary prior to entry into a related-person transaction. If a related-person transaction is identified, such transaction is brought to the attention of the Nominating and Governance Committee for its approval, ratification or disapproval in consideration of all of the material facts and circumstances that it deems appropriate.</p> <p>In addition, we annually distribute and review a questionnaire to each of our executive officers and directors requesting certain information regarding, among other things, certain transactions with us in which he, she or any family member has an interest.</p> <p>Conflicts of interest are also covered under our Proper Business Practices and Ethics Policy (“Ethics Policy”). All employees are required to complete annual training on the Ethics Policy and submit a yearly certification disclosing any relationships or financial interests that could present an actual or perceived conflict of interest. This certification process may also include additional conflict of interest training.</p>	<p>Conflict of Interest and Disclosure Policy</p> <p>Related Party Transactions Policy</p> <p>Proper Business Practices and Ethics Policy</p> <p>2025 Proxy Statement, Certain Relationships and Related Transactions (p.28)</p>
<p>2-16 Communication of critical concerns</p>	<p>Our Vice President—Audit and Security reports to the Audit Committee and provides periodic updates (generally quarterly) to the Audit Committee with respect to the Internal Audit department’s activities, including with respect to risk management matters and the audit agenda.</p> <p>In addition, at least annually, the board (through its committees) and management engage in an interactive review and evaluation of the key risks that are essential and mission critical to our business and operations. The board exercises these responsibilities periodically as part of its meetings and through its committees, each of which examines various components of risk in connection with its responsibilities.</p>	<p>2025 Proxy Statement, Risk Oversight (p.19)</p>

GRI 1: Foundation 2021, cont'd

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
<p>2-17 Collective knowledge of the highest governance body</p>	<p>Internal and external experts present to the board at least quarterly on relevant topics. Our Corporate Governance Guidelines provide, in part, that Crown Castle encourages its directors to engage in continuing education activities that will expand and enhance the directors' knowledge of issues and matters regarding corporate governance, director roles and responsibilities, and other matters relating to the carrying out of director duties, and Crown Castle will reimburse a director for reasonable expenses incurred related thereto.</p>	<p>Corporate Governance Guidelines</p>
<p>2-18 Evaluation of the performance of the highest governance body</p>	<p>The Nominating and Governance Committee leads the board in its annual review of the performance of the board and its committees.</p>	<p>Nominating and Governance Committee Charter</p>
<p>2-19 Remuneration policies</p>	<p>Details regarding board and executive compensation are included in our proxy statement. To align the interests of our executives with those of our stockholders, the focus of our executive compensation program is on incentive compensation that emphasizes "pay-for-performance," rewarding our executives for performance against specific strategic, financial and operational goals that the Committee believes are critical to the company's long-term success and the achievement of sustainable long-term stockholder returns.</p>	<p>2025 Proxy Statement, Board Compensation (p.25) and Executive Compensation (p.32)</p>
<p>2-20 Process to determine remuneration</p>	<p>The board maintains a compensation arrangement for the board's non-employee directors, subject to the Nominating and Governance Committee's periodic review. As part of this process, the Nominating and Governance Committee reviews a competitive market analysis prepared by an external compensation consultant, currently FW Cook. The Compensation and Human Capital Committee is primarily responsible for evaluating and determining the compensation levels of certain of our executive officers. They also obtain input from the external compensation consultant. Refer to our proxy statement for additional details regarding board and executive compensation.</p> <p>Our stockholders have historically approved our say-on-pay proposal at a high rate, with an average stockholder approval rate of 96% in support of our executive compensation program during the five-year period from 2020 to 2024.</p>	<p>2025 Proxy Statement, Say-on-Pay (p.7), Board Compensation (p.25) and Executive Compensation (p.32)</p>
<p>2-21 Annual total compensation ratio</p>	<p>For 2024, our CEO's annual total compensation compared to the median employee annual total compensation (CEO pay ratio) was 107:1. Refer to the CEO Pay Ratio section of our proxy statement for more details, including contextual information necessary to understand the data and how the data was compiled.</p>	<p>2025 Proxy Statement, CEO Pay Ratio (p.66)</p>
<p>2-22 Statement on sustainable development strategy</p>	<p>Our strategy is to provide profitable solutions to connect communities and people, sustainably. Our business model is inherently sustainable, as shared infrastructure solutions reduce the use of natural resources. We are taking action to improve on our strong foundation including proactive work to reduce our energy consumption and source renewable energy.</p>

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
<p>2-23 Policy commitments</p>	<p>We maintain policies and guidelines that set expectations, provide guidance and reinforce our ethical standards through periodic training opportunities across all levels of our company. Our Ethics Policy applies to all of our directors, officers and employees and addresses our ethics and compliance policies on various matters. Our Supplier Code of Conduct outlines ethics and compliance expectations for our suppliers, including issues related to conflicts of interest, competition and fair dealing. Our Human Rights Policy reflects our commitment to promoting human rights, dignity and equality with all stakeholders. Refer to the included policy link for additional details.</p> <p>We are dedicated to conducting our business with integrity, and our Human Rights Policy is informed by guidance from stakeholders as well as by the principles of the United Nations (UN) Universal Declaration of Human Rights, the Organisation for Economic Cooperations and Development's (OECD's) Guidelines for Multinational Enterprises and the International Labour Organization's Declaration on Fundamental Principles and Rights at Work.</p> <p>Under our Human Rights Policy and Equal Employment Opportunity Policy, we strictly prohibit and do not tolerate discrimination against or harassment of teammates, applicants and covered persons because of race (including traits historically associated with race, such as hair texture and protective hairstyles), color, religion, creed, national origin or ancestry, ethnicity, sex (including pregnancy or pregnancy-related conditions), gender, sexual orientation, age, physical or mental disability, citizenship, genetic information, marital status, past, current or prospective service in the uniformed services, or any other characteristic protected under applicable federal, state or local law.</p> <p>Depending on the subject matter, each of our policies is approved by the board of directors, our General Counsel and/or certain members of our EMT.</p> <p>We expect our employees and the suppliers who represent us to comply with applicable laws and regulations and to demonstrate their commitment to maintaining high ethical standards throughout their work for and with our company. We provide our employees with training to enhance their understanding of responsible behavior and our strict ethical standards.</p>	<p>Policies</p>
<p>2-24 Embedding policy commitments</p>	<p>All employees are responsible for reading, understanding and complying with our policies and exercising good judgment. We require annual training and an acknowledgement by our employees of several of our key policies. Our corporate values—People matter, Us together is better, Right thing always, Pursue excellence, Learn and grow, and Embrace stewardship—are fundamental to how we work and connect with one another and our customers and make decisions that drive our business.</p>	<p>Policies</p>
<p>2-25 Mechanisms for seeking advice and raising concerns</p>	<p>Any concerns or suspected violations of the Ethics Policy and Financial Code of Ethics can be reported anonymously and confidentially to our Ethics AlertLine. This anonymous reporting service is managed by an independent third-party provider and is available at all times.</p>	<p>Policies</p>

GRI 3: Material Topics 2021

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE
3-1 Process to determine material topics	To identify material topics for the voluntary purposes of this GRI framework, we leveraged the results of our materiality assessment and met with cross-functional leaders to consider Crown Castle's activities, business relationships, stakeholders and the sustainability context of our operations. Crown Castle has voluntarily reported within this GRI Content Index on topics that we believe will be most relevant to the users of our sustainability reporting, and inclusion herein does not suggest financial materiality. The terms "material" and "materiality" as used in the context of this report, including the indices, and in our materiality assessment are different from such terms as used in the context of filings with the SEC or within SEC rules and regulations; issues deemed material for purposes of this report may not be considered material for SEC reporting purposes. We are committed to increased transparency and continued progress in our sustainability reporting, and we will continue to refine our disclosure processes in future years.
3-2 List of material topics	See below for disclosures on the topics that we believe are most relevant for the users of our sustainability reporting.
3-3 Management of material topics	Refer to our sustainability website and our Materiality Assessment Map for information regarding our management of material topics.

GRI 201: Economic Performance 2016

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
201-1 Direct economic value generated and distributed	Refer to our consolidated financial statements for details regarding our financial results and dividends.	2024 Form 10-K , Item 8 Financial Statements and Supplementary Data (p.56)
201-2 Financial implications and other risks and opportunities due to climate change	Our board, including through its committees, oversees climate-related risks as part of its broader annual enterprise risk assessment. Refer to our TCFD Index for information about our climate-related risks and opportunities.	2024 Form 10-K , Item 1A Risk Factors (p.12) TCFD Disclosure
201-3 Defined benefit plan obligations and other retirement plans	Crown Castle offers a defined contribution plan to employees, specifically a 401(k) plan for US-based employees and an 1165(e) plan for Puerto Rico-based employees. When employees contribute a minimum of 5% of their cash compensation (base pay + annual incentive/commissions), they are eligible to receive a 5% match from Crown Castle. Additionally, Crown Castle makes an annual contribution representing up to 5% of each employee's earned base pay to their retirement account through our Purple Stock Award.	Benefits

GRI 203: Indirect Economic Impacts 2016

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
<p>203-1 Infrastructure investments and services supported</p>	<p>We have been in the business of building and operating shared communications infrastructure for more than 25 years. Every day, our work naturally intersects with challenges like maintaining public safety and meeting the growing demand for data.</p> <p>Our investments are generally commercial in nature. We work closely with community members, government officials and our customers to design and build solutions that meet their unique connectivity needs—from wireless coverage to smart city solutions to custom fiber optic networks.</p>	<p>Social</p>
<p>203-2 Significant indirect economic impacts</p>	<p>Our infrastructure enables a variety of direct and indirect economic benefits for the communities and stakeholders we serve. One example is the increased public safety enabled by our infrastructure, including phone calls to 911 or roadside assistance, a secure, dedicated wireless broadband network for emergency personnel, and increased access to data for first responders.</p> <p>Another example is the reliable connections supported by both our tower infrastructure and the more targeted, fiber-connected small cells that minimize dead zones and create enough capacity to handle today’s increased data usage.</p> <p>Additionally, our infrastructure enables the build-out of 5G, which is ushering in many new developments across industries including healthcare, education, manufacturing, technology, and more. 5G also enables smart devices and wearables, self-driving cars to make roads safer and cities less congested, and smart city technologies to bring new efficiencies and innovations to communities around the country.</p>	<p>Social</p>

GRI 205: Anti-Corruption 2016

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
205-1 Operations assessed for risks related to corruption	<p>Crown Castle’s board, including through its committees, oversees corruption-related risks as part of its broader annual enterprise risk assessment. The risk assessment process takes place throughout the year at regularly scheduled meetings of the board and its committees. There were no significant risks related to corruption identified through the risk assessment.</p>	
205-2 Communication and training about anti-corruption policies and procedures	<p>Corruption is a dishonest, fraudulent, or criminal misuse of entrusted power by an individual or organization for personal gain or other unethical or illegal benefits. Bribery is giving anything of value, directly or indirectly, to officials of foreign governments or foreign political candidates in order to obtain or retain business. Both are prohibited under our Ethics Policy.</p> <p>Our policies, including those with respect to anti-corruption, are made available to our employees. Training on certain ethics topics is provided to all new employees as part of the orientation process, and all employees complete mandatory ethics refresher courses annually.</p> <p>Additionally, we encourage our employees to ask questions and report ethical concerns or suspected violations to their manager or manager’s supervisor, the business support department, or the legal department. They can also report anonymously to our Ethics AlertLine, which is managed by a third-party provider (Navex) and is available around the clock. We maintain a strict non-retaliation policy for concerns raised in good faith.</p>	Proper Business Practices and Ethics Policy

GRI 206: Anticompetitive Behavior 2016

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
206-1 Legal actions for anticompetitive behavior, anti-trust, and monopoly practices	<p>We have not been identified as a participant in legal actions pending or completed during 2024 regarding anticompetitive behavior or violations of anti-trust or monopoly legislation.</p>	2024 Form 10-K, Item 3 Legal Proceedings (p.31)

GRI 302: Energy 2016

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
<p>302-1 Energy consumption within the organization</p>	<p>Total fuel consumption within the organization from non-renewable sources was 144,593 gigajoules. This includes diesel, gasoline and propane. Our electricity consumption was 560,393 gigajoules and our natural gas consumption was 24,304 gigajoules. Our total energy consumption was 729,290 gigajoules.</p> <p>Our fuel and energy consumption calculations were based on an operational control approach, as defined by WRI GHG Protocol and scope guidance. Boundaries include all material operating locations, including all US and US territories. Where actual consumption data was not available, we used a sampling approach or public information, such as equipment fuel efficiency and power ratings, to estimate fuel and energy consumption.</p>	<p>Environmental Data Tables</p>
<p>302-2 Energy consumption outside of the organization</p>	<p>For 2024, we built upon the foundation of our first comprehensive Scope 3 emissions inventory, continuing to report on the categories that are relevant to our business. Refer to the Environmental Data Tables for our comprehensive emissions inventory.</p>	<p>Environmental Data Tables</p>
<p>302-3 Energy intensity</p>	<p>Our energy intensity ratio is 0.000111 gigajoules/net revenue. We included the consumption of natural gas, electricity, diesel, gasoline and propane within the organization to calculate our energy intensity and used our annual net revenue as the denominator.</p>	<p>Environmental Data Tables</p>
<p>302-4 Reduction of energy consumption</p>	<p>Approximately 36% of Crown Castle's total electricity consumption comes from our Towers portfolio, and tower lighting is one of two major sources of this utilization. Approximately 12,000 of our more than 40,000 towers are mandated by law to have lighting beacons which operate 24/7. As of December 31, 2024, we have converted the lighting on 63% of those lit towers to efficient LED lighting from traditional lighting (including incandescent lit and xenon systems). We estimate that LED is approximately 90% more efficient than traditional lighting, and that LED lighting has a life expectancy of approximately five times longer than traditional lighting, resulting in fewer truck rolls for replacement.</p> <p>Through our LED tower lighting conversions, we reduced electricity consumption by 3% from 2023 to 2024, saving approximately 700,000 kWh. This improvement contributed to an estimated 8% year-over-year reduction in Scope 2 (market-based) emissions from tower lighting. On an annualized basis, we generally invest around \$3 million in our tower lighting conversion program. However, we estimate that we save approximately \$5 million each year compared to traditional lighting sources—including xenon and incandescent systems—due to lower electricity costs and reduced maintenance needs associated with LED lighting.</p> <p>While we continue to make steady progress in converting tower lighting to LED, we take a balanced approach that aligns with our operational and environmental goals, supports our ability to meet annual LED conversion targets tied to favorable pricing on our revolving credit facility, and ensures capital is deployed efficiently in line with our internal return thresholds and investment criteria.</p> <p>We are also exploring additional initiatives to reduce the emissions related to our office buildings and our fleet vehicles.</p>	<p>Environmental Data Tables</p>

GRI 304: Biodiversity 2016

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
<p>304-1 Operational sites owned, leased, managed in, or adjacent to, protected areas and areas of high biodiversity value outside protected areas</p>	<p>Prior to performing construction activities at our sites, we undertake a rigorous screening process. The assessment includes identifying and analyzing potential operational impacts on endangered wildlife, wilderness areas, historic preservation areas, and fragile ecosystems, such as wetland habitats. From the outset, we review publicly available sources, including websites hosted by federal, state or local governmental agencies and local conservation groups, to identify possible threatened or endangered species and critical habitats in the vicinity of the proposed site. Based on this information, we use internal and external sources to determine whether any species or critical habitats are present at the proposed site. If endangered wildlife or a critical habitat is detected, we engage third-party analysts to assess the impact of our deployment activities and operations and develop modifications to reduce the impact.</p> <p>We maintain our environmental policies and procedures in an effort to comply with applicable laws and regulations and observe industry standards. Our environmental management system, based on ISO 14001, provides us with a mechanism to help us understand our environmental footprint and manage our legal and regulatory compliance obligations. We strive to integrate environmental considerations into our planning and decision-making process, with the goal of promoting sound environmental practices internally and externally, as detailed in our Environmental Sustainability Policy.</p>	<p>Environmental Sustainability Policy</p>
<p>304-2 Significant impacts of activities, products and services on biodiversity</p>	<p>We actively monitor our infrastructure and take deliberate steps to minimize the risks to surrounding biodiversity and habitats. One example is our Seasonal Bird Program. Protected bird species occasionally select our infrastructure, particularly our towers, for nesting activities. We maintain a dedicated team of environmental specialists who spot, track and document nest sites and protected bird activity. To support regulatory compliance, we developed a state-specific bird guide that outlines nesting seasons by species, helping ensure consistent adherence to the guidelines. When necessary, we collaborate with third-party experts and regulatory agencies, such as the US Department of Agriculture, to limit on-site access and relocate birds using non-invasive, low-disturbance methods.</p>	<p>Biodiversity and bird protection</p>

GRI 305: Emissions 2016

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
<p>305-1 Direct (Scope 1) GHG emissions</p>	<p>Our Scope 1 emissions were 11,374 MTCO₂e. Gases included in the calculation are carbon dioxide (CO₂), methane (CH₄), and nitrous oxide (N₂O).</p> <p>We used emission factors from 40 CFR Part 98 Tables C-1 and C-2 and EPA eGRID factors. Global Warming Potential documented in the Intergovernmental Panel on Climate Change AR5 report was used to calculate CO₂e for methane (CH₄) and nitrous oxide (N₂O). We use an operational control consolidation approach, as defined by WRI GHG Protocol and scope guidance. Boundaries include all material operating locations, including the US and US territories¹.</p>	<p>Environmental Data Tables</p>

GRI 305: Emissions 2016, cont'd

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
<p>305-2 Energy indirect (Scope 2) GHG emissions</p>	<p>Our location-based Scope 2 emissions were 52,114 MTCO₂e and our market-based Scope 2 emissions were 4,012 MTCO₂e. Gases included in the calculation are carbon dioxide (CO₂), methane (CH₄), and nitrous oxide (N₂O).</p> <p>We used emission factors from 40 CFR Part 98 Tables C-1 and C-2 and EPA eGRID factors. Global Warming Potential documented in the Intergovernmental Panel on Climate Change AR5 report was used to calculate CO₂e for methane (CH₄) and nitrous oxide (N₂O). We use an operational control consolidation approach, as defined by WRI GHG Protocol and scope guidance. Boundaries include all material operating locations, including the US and US territories.¹ Emissions are calculated using WRI GHG Protocol's location-based and market-based methods.</p>	<p>Environmental Data Tables</p>
<p>305-3 Other indirect (Scope 3) GHG emissions</p>	<p>Our Scope 3 emissions were 1,282,012 MTCO₂e. Refer to the Environmental Data Tables for details regarding relevant Scope 3 categories included and detail of our calculations.</p>	<p>Environmental Data Tables</p>
<p>305-4 GHG emissions intensity</p>	<p>Our GHG emissions intensity ratio is 0.00000234 MTCO₂e/net revenue.</p> <p>Scope 1 and market-based Scope 2 GHG emissions were included in our emissions intensity ratio. Gases included in the calculation are carbon dioxide (CO₂), methane (CH₄) and nitrous oxide (N₂O). We chose to calculate our GHG emissions intensity ratio using our annual net revenue as the denominator.</p>	
<p>305-5 Reduction of GHG emissions</p>	<p>Crown Castle strives to reduce GHG emissions as we fulfill our goal of achieving carbon neutrality in Scope 1 and 2 emissions for 2025. We are investing in projects that benefit both our business and the environment. In 2021, we set a goal to achieve 100% Scope 1 GHG emissions reduction for 2025, aiming to reduce emissions to zero via direct reductions or offsets. We also set a goal to achieve 100% Scope 2 GHG emissions reduction for 2025, aiming to reduce emissions to zero via direct reductions or purchases of renewable energy. One initiative to reduce our energy usage is switching to energy-efficient LED lighting on our lit towers, with 63% now converted to LED. We also source around 114,000 MWh of renewable energy across 13 states through retail agreements and 30,000 MWh of renewable energy from the Priddy Wind Farm Project and the Pitts Dudik Solar Project—representing ~93% of our annual electricity consumption—to reduce our carbon footprint.</p> <p>Refer to our sustainability website for details regarding gases included in the calculation and the standards, methodologies and assumptions used. We plan to periodically evaluate our reduction strategies across Scopes 1, 2 and 3 emissions and consider new opportunities to lower our environmental impact.</p>	<p>Consumption and emissions tables</p>

¹ In early 2025, we announced the agreement to sell our small cells and fiber solutions businesses, with the transaction expected to close in the first half of 2026. This transaction will change our energy consumption and emissions profile in future years as we transition to a towers-focused business model.

GRI 306: Waste 2020

GRI 403: Occupational Health and Safety 2018

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
<p>403-1 Occupational health and safety management system</p>	<p>Industry best practices lay the groundwork for our safety programs, which are reinforced through our extensive training courses. We harness our collective field experience to improve safety standards throughout the entire telecommunications industry.</p> <p>We encourage our suppliers to share our safety philosophy and contractually require them to follow certain safety rules and standards. We periodically audit supplier work at various stages of a project and suspend suppliers when a major safety incident occurs or a safety violation is observed. Before we consider reinstatement, the supplier must provide us with a corrective action plan detailing its proposed corrective measures for addressing the incident or our safety concerns. By incentivizing our suppliers to adopt appropriate safety standards, we promote improvement in the workplace conditions of others in our sector.</p> <p>To work on a Crown Castle site, we require that all contractors be qualified in advance by Crown Castle and be registered with Avetta, a third-party contractor vetting company. Avetta requires contractors registered with it to report any workplace OSHA Recordable event that occurs at a Crown Castle site (https://www.osha.gov/recordkeeping). In general, OSHA requires a report of any work-related: fatality; injury or illness that results in loss of consciousness, days away from work, restricted work, or transfer to another job; injury that requires medical treatment beyond first aid; or diagnoses of fractured or cracked bones or teeth or a punctured eardrum.</p> <p>Additionally, Crown Castle’s safety team audits and inspects work performed at Crown Castle sites through a Site Safety Observation process conducted by Crown Castle employees. Site Safety Observations (“SSOs”) are used by Crown Castle to collect safety and quality data. Each SSO has a core list of questions that covers the minimum requirements contractors must meet to operate on our sites. The SSOs allow Crown Castle to document safety issues when they are found and to record how those issues are addressed by the contractor. Imminently dangerous situations may lead to further action, such as a suspension of the contractor or sub-contractor. Crown Castle’s field team members are encouraged to complete an SSO every time they are at a Crown Castle site, with each field team member required to complete a minimum of three SSOs per quarter.</p> <p>Our safety team audited work performed at Crown Castle sites through 11,694 SSOs in 2024, during which contractor work and procedures were inspected to ensure compliance with our rigorous safety requirements.</p>	<p>Safety</p>

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
<p>403-2 Hazard identification, risk assessment, and incident investigation</p>	<p>Safety practices are tailored to conform to or exceed industry standards. We assign safety training based on potential exposure to hazards associated with an individual's job, including the required use of personal protective equipment ("PPE") to mitigate hazards that may be encountered on the job. Employees have a number of methods available to them to report concerns of any nature, including reporting to their supervisor, to their supervisor's manager, directly to the Legal or Internal Audit Departments, or utilizing our anonymous, third-party administered Ethics AlertLine, which is available 24/7/365. As part of our incident management program, we investigate safety incidents involving avoided incidents, injuries or property damage. Our safety team records statements from both the involved employees and their supervisors for inclusion in the incident report. Incident data collected during the investigation is tracked and analyzed to identify root causes and contributing factors and to formulate short-term and long-term solutions.</p> <p>Crown Castle requires all contractors and subcontractors (including those hired by Crown Castle customers and licensees) who perform work on Crown Castle sites to follow certain procedures. To ensure those procedures are followed, Crown Castle requires that it be notified any time that technician services are to be performed at a Crown Castle site. A telephone number for our 24-hour Network Operations Center (NOC) and other relevant information needed to contact and notify Crown Castle is clearly displayed on a placard at the entrance to all Crown Castle sites. Those who work at a Crown Castle site are also able to report any safety concerns via that telephone number.</p> <p>Moreover, Crown Castle requires all contractors and subcontractors to report, among other things, any injury that they experience while working on a Crown Castle site. Further, Crown Castle's policies prohibit retaliation for reporting a safety concern by its employees or by those who are performing work at Crown Castle sites.</p>	<p>Safety</p>
<p>403-3 Occupational health and safety</p>	<p>As a leading owner and operator of essential infrastructure, we're committed to fostering a safe working environment. Our enterprise-wide focus helps us coordinate safety standards across our infrastructure, buildings and operational initiatives. In 2024, Crown Castle conducted a company-wide safety survey to help guide updates to our existing safety programs.</p> <p>We carefully design safety policies, procedures and training courses in an effort to prevent injuries or damage stemming from our operations. To do this, we focus on three areas:</p> <ul style="list-style-type: none"> › Safety reporting: Our employees are required to report incidents to their supervisors and complete an Accident Investigation Report. Data collected during investigations is then analyzed to identify causes and to inform solutions. › Safety oversight: Our Safety Committee oversees the activities of dedicated safety and risk management teams—providing a high level of accountability across the company. › Safety training: Safety training is a critical part of our program and is assigned based on the potential risks associated with an individual's role. 	<p>Safety</p>

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
<p>403-4 Worker participation, consultation, and communication on occupational health and safety</p>	<p>Our Safety Committee, composed of cross-functional leaders at the company, oversees and provides additional guidance and support to our safety and risk management teams. They provide an extra level of accountability to better manage risk across the organization. The board and EMT receive periodic updates regarding safety risks, trends and developments pertinent to our business.</p>	<p>Safety</p>
<p>403-5 Worker training on occupational health and safety</p>	<p>The success of our safety programs hinges on our workers being properly trained to recognize and manage the everyday hazards of their jobs. We devote considerable resources to educating our workforce on safety practices and procedures. We require our field workers to complete annual safety training on a variety of topics, including hazardous material handling, radio frequency training, lockout-tagout, aerial lift operation, and battery safety. Supplemental training is available through monthly online courses offered on our internal website. We require workers who operate a company vehicle to complete courses on topics ranging from defensive driving to speed management.</p> <p>Crown Castle employees collectively dedicated 10,701 hours in 2024 to comprehensive safety training, underscoring our proactive approach to fostering a safe working environment. Additionally, we had an increased focus on first aid and CPR training across the company and, through our partnership with the American Red Cross, we certified 84% of field and 10% of office employees.</p>	<p>Safety</p>
<p>403-6 Promotion of worker health</p>	<p>We recognize that well-being, whether physical, emotional or financial, drives employee engagement, satisfaction and productivity. As such, we provide our employees with the resources to allow them to take care of themselves and their covered family members. We also provide paid time off and other leave-related benefits to allow our employees to care for others when needed.</p> <p>Some of the health and wellness benefits we offer include:</p> <ul style="list-style-type: none"> › Medical, dental and vision plans › Up to 16 sessions per year of complimentary mental health coaching or therapy for each employee and family member › Healthcare navigation resources for expert medical opinions, decision support for conditions and treatments, concierge provider referrals, and more › Health savings account contributions › Disability coverage › Life insurance › Employee assistance program › Personal time off › Parental leave › Subsidized milk shipping service for traveling nursing moms › Adoption expense reimbursement › Virtual physical therapy and virtual pelvic health › Infertility support › Access to condition-specific centers of excellence › Accident, Critical Illness and Hospital Indemnity offerings › Weight management support 	<p>Benefits</p>

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
404-1 Average hours of training per year per employee	<p>At Crown Castle, we invest in our employees by providing resources that support their professional growth and empower them to build new skills by giving them access to a wide range of training tools—including our Learning Management System and LinkedIn Learning. In 2024, over 82,000 courses were completed by 5,337 learners, culminating in ~60,000 training hours and an average of 11.2 hours per learner.</p> <p>We evaluate our training programs and initiatives by measuring impact. For example, we use data to assess utilization and adoption, effectiveness, learning transfer and when possible, Return on Investment (“ROI.”) And we don’t just do this to report on successes and failures, but also to continuously improve our approach and outcomes.</p> <p>Recently, many of our in-house learning experts have obtained certification in the ROI Methodology™ to apply the Learning and Development (“L&D”) International Organization for Standardization (“ISO”) Standard. This certification enables us to conduct impact studies appropriate to the initiative. Additionally, we consistently apply Levels 1-3 of the Kirkpatrick model, which includes reaction (typically measured in Net Promoter Score), learning, and behavior, to ensure comprehensive evaluation.</p> <p>Our results indicate that many of our programs achieve high scores, demonstrating their effectiveness and the positive impact on our employees’ skills and performance. And if the results are not as expected, we can learn and grow to improve.</p>	Learning & Development
404-2 Programs for upgrading employee skills and transition assistance programs	<p>The Crown Castle Extended Service Separation Program (“ESSP”) provides certain retirement-type benefits to employees following their voluntary departure, subject to satisfaction of certain age and service requirements. This program financially rewards employees who have contributed to our value creation and offers them greater flexibility to exit the workforce when they are ready.</p>	2025 Proxy Statement , Amended and Restated Extended Service Separation Program (p.48)

406-1 Incidents of discrimination and corrective actions taken	<p>Crown Castle is an equal opportunity employer and seeks to comply with applicable federal, state and local fair employment practice laws. We strictly prohibit and do not tolerate discrimination or harassment against teammates, applicants and covered persons because of race (including traits historically associated with race, such as hair texture and protective hairstyles), color, religion, creed, national origin or ancestry, ethnicity, sex (including pregnancy or pregnancy-related conditions), gender, sexual orientation, age, physical or mental disability, citizenship, genetic information, marital status, past, current or prospective service in the uniformed service, or any other characteristic protected under applicable federal, state or local law.</p>	Human Rights Policy

GRI 413: Local Communities 2016

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
413-1 Operations with local community engagement, impact assessments, and development programs	<p>Our nationwide portfolio of communications infrastructure connects cities and communities to essential data, technology and wireless service—bringing information, ideas and innovations to the people and businesses that need them. Our business is built around connecting people and communities. Every day, our work naturally intersects with challenges like maintaining public safety and meeting the growing demand for data.</p> <p>We aim to ensure that communities have the right mix of towers, small cells, and fiber to stay connected to what matters most. Our projects follow a rigorous process—including structural analysis, permitting, zoning, and environmental reviews—to ensure safety, regulatory compliance, and minimal community impact. We actively involve municipalities throughout this process, prioritizing early and transparent communication with local leaders and zoning boards. Our teams, embedded in communities across the country, maintain strong local relationships and incorporate community feedback into our planning to support thoughtful, responsive infrastructure development.</p> <p>At Crown Castle, we do more than just connect communities with our infrastructure; we connect with our communities. Our Connected by Good program is one way we give and volunteer in the communities where we live and work.</p>	Your Community Connected by Good

DISCLOSURE	CROWN CASTLE METRIC OR QUALITATIVE DISCLOSURE	DISCLOSURE LOCATION
<p>414-1 New suppliers that were screened using social criteria</p>	<p>Crown Castle is committed to conducting business with honesty and uncompromising integrity—values that extend equally to our supply chain. Our Supplier Code of Conduct contains principles to promote ethical business practices among entities, including their subcontractors and agents, providing products, people or services to Crown Castle (“suppliers”). Crown Castle expects its suppliers to (a) comply with applicable laws and regulations, (b) conform to or exceed industry best practices and (c) meet or exceed the expectations set forth in the Supplier Code of Conduct and any agreements between Crown Castle and the respective supplier. 100% of our suppliers are contractually required to comply with our Supplier Code of Conduct and Human Rights Policy, and we periodically require reaffirmation of these commitments, including updates to policies and contractual obligations.</p> <p>To uphold these standards, we review the qualifications of suppliers in the areas of insurance, safety, compliance, and sustainability. This engagement process benefits both Crown Castle and our suppliers by increasing the adoption and adherence to responsible and ethical business practices across our supply chain. In addition to our internal vetting process, we partner with third-party supplier qualification and compliance management firms to assist with initial screening and periodic reviews. These firms help verify that suppliers are properly insured and meet or exceed safety performance metrics through a comprehensive review of supplier questionnaire responses, public records, and health and safety statistics benchmarked against industry standards. As part of our onboarding process, all new suppliers are typically audited against social criteria to help ensure alignment with our ethical, safety, and human rights standards. We also regularly review our suppliers’ legal compliance, financial stability, and adherence to safety and labor standards—factors that help us identify and address potential risks, including those that may indicate material human rights concerns.</p> <p>In 2024, our third-party vendor management company audited over 1,600 suppliers, and Crown Castle conducted nearly 12,000 field inspections to verify contractor compliance and credentials. We also assess the maturity of sustainability programs and business practices of a selection of our largest suppliers through an annual questionnaire.</p> <p>We recognize that an inclusive supply chain introduces agility, creativity, and innovation—positioning us to better meet the varied needs of our customers. Where possible, we prioritize local suppliers to stimulate economic growth in the communities where we operate. In 2024, more than 190 suppliers self-reported having a small business designation. As part of our supplier engagement process, we actively seek to promote economic inclusion by considering businesses of varying sizes, geographies, and capabilities—particularly those that contribute to local economic development and reflect the communities in which we operate.</p> <p>Our spending for goods outside of the US is minimal (less than 2% of annual spend in 2024), and these suppliers are still headquartered in the US, making them subject to US laws and regulations. Our supplier oversight framework is comprehensive and continuously reinforced through both internal and third-party evaluations.</p>	<p>Suppliers</p> <p>Supplier Code of Conduct</p>
